

RapidArc® Radiotherapy Technology Workshop

27th March, 2010
8 am – 12 pm

Please join us for a halfday RapidArc workshop focusing on commissioning procedures, treatment planning and quality assurance, as well as the implementation aspects of RapidArc in your department. A very strong speaker panel has been developed with guest speakers from CancerCare Manitoba, the University of Victoria and the University of Massachusetts.

Attendees will have the opportunity to learn even more about RapidArc during a real-time, hands-on RapidArc treatment planning session given by Varian Medical Systems experts.

The RapidArc workshop will be an exciting educational opportunity for those centers looking to implement RapidArc.
